

Phase 2 Sales Assets Index

Purpose: package the minimum sales assets needed to move from MVP completion to controlled customer discovery, demo delivery, and first paid pilot.

Status: draft package. Customer-facing use requires founder, product owner, security owner, and counsel review where noted.

Asset Checklist

Asset	File	Intended use	Review requirement
Phase 1 lock-the-offer guide	docs/marketing/phase-1-lock-the-offer.md	Offer definition before sales-asset use	Founder, product, claims review
Phase 1 ideal customer profile	docs/marketing/phase-1-ideal-customer-profile.md	ICP and disqualification reference	Founder, product review
Phase 1 problem/use cases	docs/marketing/phase-1-problem-use-cases.md	Discovery framing and pain validation	Founder, product review
Phase 1 positioning/messaging	docs/marketing/phase-1-positioning-messaging.md	Sales and website message source	Founder, product, claims review
Phase 1 pilot offer	docs/marketing/phase-1-pilot-offer.md	Paid pilot scope and close	Founder, finance, counsel review
Phase 1 discovery questions	docs/marketing/phase-1-discovery-questions.md	Customer discovery call guide	Founder review
Phase 1 offer validation checklist	docs/marketing/phase-1-offer-validation-checklist.md	Internal pre-Phase-2 checklist	Founder, product, claims review
Phase 1 one-page offer	docs/marketing/phase-1-one-page-offer.md	Send after qualified discovery call	Founder, product, counsel review
Phase 1 discovery call script	docs/marketing/phase-1-discovery-call-script.md	Founder-led first call script	Founder review
Phase 1 qualification scorecard	docs/marketing/phase-1-qualification-scorecard.md	Prospect fit scoring before demo/pilot	Founder review
Phase 1 pilot scope and success plan	docs/marketing/phase-1-pilot-scope-success-plan.md	Pilot scope worksheet before payment	Founder, product, counsel review
Phase 1 founder action checklist	docs/marketing/phase-1-founder-action-checklist.md	Execution tracker for first five prospects	Founder review
Phase 3 discovery guide	docs/marketing/phase-3-validate-with-20-conversations.md	Founder-led direct discovery before ads or broad launch	Founder, product, claims review
Phase 3 discovery tracker	docs/marketing/phase-3-discovery-tracker.csv	Call logging and validation scorecard	Founder review
Phase 4 pilot offer guide	docs/marketing/phase-4-create-a-pilot-offer.md	First paid pilot close, scope, and execution guide	Founder, product, finance, counsel review
Phase 4 pilot candidate scorecard	docs/marketing/phase-4-pilot-candidate-scorecard.csv	Compare pilot candidates before accepting first customer	Founder review
Phase 5 distribution channels guide	docs/marketing/phase-5-distribution-channels.md	Prioritized distribution operating plan from direct outbound to later paid channels	Founder, product, claims review
Phase 5 distribution tracker	docs/marketing/phase-5-distribution-channel-tracker.csv	Channel activity and conversion tracking	Founder review
Phase 6 first 90-day roadmap	docs/marketing/phase-6-first-90-day-roadmap.md	Day-by-day operating roadmap from MVP freeze to first paid customer evidence	Founder, product, security, finance, counsel review where applicable
Phase 6 90-day tracker	docs/marketing/phase-6-90-day-roadmap-tracker.csv	Weekly execution metrics and blocker tracking	Founder review
Controlled customer-discovery roadmap	docs/marketing/controlled-customer-discovery-roadmap.md	Master pipeline guide tying Phases 1-6 to verified product behavior and phase gates	Founder, product, security, finance, counsel review where applicable

Asset	File	Intended use	Review requirement
Controlled customer-discovery tracker	docs/marketing/controlled-customer-discovery-pipeline-tracker.csv	Master weekly pipeline, gate, claims-risk, and conversion tracker	Founder review
10-slide sales deck	docs/marketing/fedril-phase-2-sales-deck.pptx	Discovery calls, advisor meetings, pilot sales calls	Founder, product, claims review
Sales deck source	docs/marketing/fedril-phase-2-sales-deck.md	Reviewable slide copy	Founder, product, claims review
Sample readiness report source	docs/marketing/sample-readiness-report.md	Demo report copy and PDF source	Product, security, claims review
Sample readiness report PDF	docs/marketing/sample-readiness-report.pdf	Demo leave-behind and sales attachment	Product, security, claims review before external use
Sample obligation/evidence workflow	docs/marketing/sample-obligation-evidence-workflow.md	Demo workflow and pilot setup guide	Product, security, claims review
Security and data-handling page	docs/marketing/security-and-data-handling-page.md	Website or sales collateral page draft	Security, counsel, product review
No-CUI policy statement	docs/marketing/no-cui-policy-statement.md	Policy page, pilot attachment, onboarding reference	Security and counsel review
Pricing page with founder-friendly pilot	docs/marketing/pricing-page-founder-pilot.md	Website pricing page draft and sales script	Founder, finance, counsel review
Terms/disclaimer language	docs/marketing/terms-disclaimer-counsel-review.md	Counsel review packet for contracts and public copy	Counsel approval required
Minimum demo script	docs/marketing/minimum-demo-structure.md	Live demo sequence and talk track	Founder, product, claims review

Required Sales Package Boundary

Every Phase 2 sales asset must preserve these boundaries:

- FeDril is No-CUI / compliance management only in the MVP.
- Real CUI is prohibited.
- Classified information, ITAR/export-controlled data, sensitive government-furnished information, credentials, payroll, SSNs, health data, disability data, sensitive incident details, and unrestricted security logs are prohibited.
- FeDril does not provide legal advice, accounting advice, labor determinations, CMMC certification, assessor determinations, contracting-officer determinations, or government endorsement.
- Reports and readiness labels are workflow guidance, not pass/fail or assessment-success determinations.
- Source-backed content remains reviewable and subject to qualified expert review where required.

Requested Phase 2 Asset Completion Status

These assets are complete as controlled drafts for founder-led discovery and demo preparation. They are not approved for unrestricted public use.

Requested task	Status	Output	Remaining gate
Sample obligation/evidence workflow	Complete controlled draft	docs/marketing/sample-obligation-evidence-workflow.md	Product/security/claims review before external use.
Security and data-handling page	Complete draft page copy	docs/marketing/security-and-data-handling-page.md	Security owner, product owner, and counsel approval before publication.
No-CUI policy statement	Complete draft policy statement	docs/marketing/no-cui-policy-statement.md	Counsel/security approval before customer attachment or publication.
Pricing page with founder-friendly pilot option	Complete pricing hypothesis draft	docs/marketing/pricing-page-founder-pilot.md	Founder, finance, and counsel approval before invoicing or publication.

Requested task	Status	Output	Remaining gate
Terms/disclaimer language reviewed by counsel before real sales	Counsel review packet complete; counsel review still required	docs/marketing/terms-disclaimer-counsel-review.md	Actual counsel approval before real sales, contracts, order forms, pricing pages, or public claims.

Recommended Usage Sequence

1. Send the security and No-CUI pages before or immediately after the first serious demo request.
2. Use the 10-slide deck for the first structured sales conversation.
3. Run the minimum demo script with synthetic, redacted, or non-sensitive data only.
4. Share the sample readiness report PDF as a leave-behind.
5. Use the pricing page to propose the paid 30-day guided pilot.
6. Route terms and disclaimer language to counsel before real sales, order forms, or public launch.

Phase 2 Exit Criteria

Phase 2 sales assets are usable for controlled customer discovery only when:

- The deck, demo script, pricing page, security page, No-CUI policy, sample workflow, and sample report are internally reviewed.
- Customer-facing claims have been checked against the current application UI, API enforcement, permissions, and tests.
- Counsel has reviewed public-facing terms, disclaimers, pricing language, and pilot terms before real sales.
- The demo environment uses only synthetic, redacted, or non-sensitive data.
- The sales process has a documented way to stop or redirect prospects who require real CUI handling.
- The paid pilot offer is clear: scope, price, conversion credit, exclusions, and decision deadline.

Current Implementation Verification Notes

Use these notes as the source-of-truth check before updating any Phase 2 asset:

- Primary navigation labels are Dashboard, Profile, Contracts, Obligations, Calendar, Evidence, CMMC, Subcontractors, Reports, and Settings.
- Contract form labels are Contract number, Title, Agency or prime, Role, Contract type, Status, Awarded, Start, End, FCI/CUI posture, Place of performance, and Description.
- Obligation workflow statuses are Open, In progress, Blocked, Waiting for review, Done, and Canceled.
- Evidence metadata labels are Title, Type, Owner, Status, Effective, Expires, Tags, Obligations (optional), Controls, Classification, Classification reason, and Description.
- The current Reports tab supports Compliance Status, CMMC Readiness, Subcontractor Compliance, and Evidence Package artifacts.
- No-CUI acknowledgement is displayed in contract and evidence workflows. Current enforcement blocks upload-related workflows until acknowledgement and applicable attestation requirements are satisfied; do not claim all contract metadata entry is blocked.

Demo Step To App Tab Map

Demo step	Primary tab	Supporting tab	UI section or action
Confirm No-CUI boundary	Contracts	Evidence	No-CUI acknowledgement panel; upload-related guardrails.
Add contract metadata	Contracts	None	Create contract record; contract form.

Demo step	Primary tab	Supporting tab	UI section or action
Attach or review clauses	Contracts	Obligations	Attached clauses; Clause library search.
Review obligations	Obligations	Dashboard	Obligation work queue; View details; Priority obligations.
Assign owner and update status	Obligations	None	Assign by; Update status; Save status.
Link evidence metadata	Evidence	Obligations	Evidence metadata; Obligations (optional); Controls.
Generate reports or package	Reports	CMMC, Subcontractors	Compliance status; CMMC readiness; Subcontractor compliance; Evidence package builder.
Review audit history	Settings	None	Audit log; Tenant audit events.

Hidden Risks

- Sales assets can drift from product controls if updated independently from onboarding, upload warnings, and support scripts.
- A sample report can be mistaken for a compliance determination if disclaimers are removed.
- Prospects may ask for real CUI upload during a demo; the demo script must stop and restate the No-CUI boundary.
- Pricing can become misleading if pilot scope, conversion credit, refund policy, or subscription terms are not matched in the order form.
- Counsel review is a dependency, not a formality, because these assets touch regulated compliance expectations.
